

Dear Valued Patient,

I would like to take this opportunity to thank you for being a valued patient of our dental family. We appreciate your trust and the confidence you have placed in us over the years.

With this in mind, I wanted to share some exciting news. I would like to introduce a new addition to our team – Dr. Isaac Hanset. A few years ago, I began the search for a doctor that shared a similar philosophical and patient-centered approach. I am happy to announce that I have finally found that doctor. Dr. Hanset has proven himself not only as an excellent clinician, but also practices dentistry with the same quality and comprehensive solutions as you have been accustomed to in our office.

Dr. Isaac Hanset was born and raised in Gresham. After graduating from Gresham High School, he attended Roseman University of Health Sciences, where he received his Doctorate of Medicine in Dentistry in 2020. He has a passion for dentistry and because of this, he has completed hundreds of hours of continuing education courses including Invisalign, Implant Dentistry, Digital Dentistry, in-office crowns that are completed in a single visit and many other procedures.

Dr Hanset has been chosen and trusted to run practices in different settings throughout his career. In Northern California he was requested to take over the clinical care of patients from a dentist who had an unexpected illness. He was able to rest at ease knowing Dr. Hanset was taking great care of his patients until he could return. Dr Hanset was then invited to Nevada to run a practice and introduce new procedures. He was most proud when patients would thank him for listening to their concerns, addressing their anxieties and helping them through challenging situations.

Dr. Hanset loves cultivating a comfortable environment where patients can receive the highest quality dental care. He feels it is important to help the community live happier and more comfortable lives.

In his free time Dr. Hanset is an avid rock climber and snowboarder. His faithful Australian Shepherd, Norton, likes to come along when he can. Dr. Hanset is excited to be back in his hometown of Gresham where he can spend more time with his family and the community that he calls home. He looks forward to meeting you and taking care of your dental needs.

I am confident you will find Dr. Hanset to be a wonderful addition to the Practice. I will be spending more time teaching in Phoenix, Arizona as they have offered me the position of Senior Facility Instructor. This will allow me more time to spend with my family. I will still be around to do and finish cases for you, our patients.

My team and I remain committed to providing you with the best possible level of care. It continues to be a privilege to serve you and we look forward to caring for your family and friends.

Warmest Regards,

Dr. Robin Kwon
